

BIJEN SHAHI

SOFTWARE ENGINEER

Kathmandu, Nepal • +977-9841943442 • shahibijen@gmail.com

SUMMARY

I'm a software engineer with over four years of experience in mobile application development using React Native and Kotlin. I have worked on designing, developing, and maintaining scalable, user-focused mobile applications across multiple domains, including entertainment and digital media. I am also quite passionate about performance optimisation, native mobile development, mentoring junior developers, and expanding expertise in modern software engineering practices.

WORK EXPERIENCE

Veel Inc.

August, 2024 – Present

Software Engineer

- Transitioned into native Android development using Kotlin and contributed to migrating the React Native application to a fully native architecture.
- Revamped UI/UX flows for multiple features, including social media sharing and authentication, improving user experience and feature usability.
- Implemented and integrated third-party authentication and sign-up solutions, ensuring secure and seamless onboarding experiences.
- Managed application deployments and feature releases across the Google Play Store and the Apple App Store.
- Assisted interns in implementing features through collaboration and code support.
- Actively participated in code reviews to maintain code quality, enforce best practices, and improve team development standards
- Contributed to technical documentation and implemented improvements to complex application workflows

Machnet Technology Pvt Ltd.

December, 2022 – August, 2024

Software Engineer

- Assisting and mentoring junior engineers and supporting them where necessary.
- Contributed to the development of the CI/CD pipeline, enhancing development frequency.
- Integrated several React Native modules, including App Centre, LogRocket, Lottie for React Native, react-navigation, and react-native-firebase.

Amnil Technologies Pvt Ltd.

November, 2021 – December, 2022

Associate Software Engineer

- Successfully migrated three legacy native mobile applications into separate React Native applications, improving maintainability, development efficiency, and cross-platform scalability.
- Contributed to the development and maintenance of in-house packages and reusable libraries utilised across multiple applications, improving development efficiency and code consistency
- Managed end-to-end application deployment and release processes across mobile app stores.
- Worked on multiple large-scale cinema applications, including QFX Cinemas, FCube Cinemas, Midtown Cinemas, and BSR Movies

React Native Intern

- Gained a strong understanding of JavaScript (ES6+) and asynchronous programming concepts, including promises, async/await, and API handling.
 - Developed a movie-browsing mobile application using React Native, implementing genre-based sorting and filtering.
 - Implemented state management using Redux and Redux-Saga to handle asynchronous data flow efficiently.
 - Integrated seamless navigation using React Navigation to enhance user experience.
 - Acquired practical knowledge of MySQL database management.
-

LEADERSHIP AND ACTIVITIES

- Led and mentored React Native and Android interns, providing technical guidance and assisting with project onboarding and knowledge transfer.
 - Collaborated closely with product managers and design teams to gather requirements, clarify technical specifications, and ensure successful and timely project delivery
-

SKILLS & INTERESTS

Technical:

- Programming Languages: JavaScript, TypeScript, Kotlin
 - Framework: React Native, Expo,
 - Version Control & Dev Tools: Git, Jenkins, Jira
 - Soft Skills: Cross-functional collaboration, problem-solving, performance optimization
-

EDUCATION

University of Wolverhampton, UK

BSc (Hons) Computer Science

Delivered at Herald College Kathmandu (Affiliated College)

- November 2018 - June, 2021

+2 Management

Uniglobe Secondary School, Nepal

- July, 2016 - April, 2018
